

# LAB SAFETY AWARENESS WEEK

We're All in this Together!

## Safety is everyone's responsibility.

- Avoid working alone in the lab.
- Review standard operating procedures.
- Review chemical Safety Data Sheets (SDS).
- Avoid accumulating large amounts of hazardous waste or holding onto unused or outdated chemicals.
- Keep areas tidy and organized.
- Include safety topics in your lab group meetings.
- Reach out to EHS with any questions or concerns – we are here to help!
