

Laboratory Safety

TEXAS A&M UNIVERSITY
Environmental
Health & Safety

How does **EHS Laboratory Safety** serve our campus community?

Environmental Health & Safety's (EHS) Laboratory Safety Program strives to promote safety awareness, encourages safe work practices in laboratories, and performs annual reviews to ensure laboratory compliance with federal, state, and local regulations and university rules.

What WE Do...

- Lab Inspections - 955 lab groups, 5,630 spaces
- Radioactive Material (RAM) Inspections
- Fume Hood Certifications - 2,571 fume hoods
- Lab Safety Training
- Construction/Renovation Plan Review
- Lab Registration and Management - SciShield (BioRAFT)
- Lab Consultations
- Lab Decommissioning/Transfers
- Project Safety Analysis (PSA)
- Chemical Inventory
