

LAB SAFETY AWARENESS WEEK

Lab Housekeeping

February 13th – 17th 2023

**Good lab housekeeping reduces
the number of accidents.**

Space is always at a premium.

Don't be a hoarder!

- Reduce clutter.
- Limit flammable materials like paper or cardboard to reduce the risk of fire.
- Never block emergency exits, fire extinguishers, safety showers, eyewashes, AEDs, or electrical panels.
- Consider scheduling frequent lab clean-out days. Establishing an internal inspections program improves the lab safety culture.
- Periodically thaw freezers.
- Make arrangements to service, maintain or remove broken equipment.

EHS is here to support the Texas A&M
University academic community in safely
achieving their research goals.
