About EHS

Mission

Environmental Health & Safety supports and enriches Texas A&M University by providing quality programs and services that instill safety, health, and environmental stewardship.

Vision

We pledge to ensure that Texas A&M provides the highest standard in health, safety, and environmental protection.

Core Values

Safety: We believe safety is paramount.

Communication: We provide education and assistance.

Cooperation: We work together to achieve excellence.

Integrity: We value respect, virtue, and professionalism.

Introduction

Welcome

The EHS Training Catalog offers a diverse selection of training opportunities to encourage safety awareness, promote learning enhancement, and foster professional growth with job-specific subjects. We continually review and update our courses and strive to offer the most current content on each topic, ranging from awareness-level to more advanced technical training. New courses are added frequently, so we encourage you to visit often.

Training Formats

EHS offers interactive, online training to be completed at your own pace and convenience. We also conduct in-classroom training, either scheduled at regular frequency or by request.

Accessibility

All online EHS courses are available in alternative formats, such as Word, PowerPoint, or PDF documents. Contact ehstraining@tamu.edu to request an accessible version of any online course, or to request a more accessible option for in-person training.

Contact Us

If you have questions, need training assistance, or would like to offer suggestions, please contact ehstraining@tamu.edu.

Course Instructions

Each course has a specific delivery format and is identified by an icon that is hyperlinked directly to the appropriate course access/registration page or contact information to assist with enrollment. These courses should be accessible to all Texas A&M entities. Below are the access instructions for the delivery formats offered:

A. TrainTraq or EHSA: Online

- 1) **TrainTraq** – Faculty, staff, and student employees will access TrainTraq courses through Single Sign On (SSO) at sso.tamug.edu. Log in by using the Texas A&M Campus or Agency Login, entering your NetID and password or UIN Login, entering your UIN and password.

At the SSO Menu:

- Choose TrainTraq. Click “Course Catalog” tab at top.
- Enter the TrainTraq course name, number, or keywords to search.
- Select course name. Click “Start Course” to begin training.

Note: All courses have an acknowledgement or quiz at the end of the training.

- 2) **TrainTraq External Gateway** – Students, visitors, or personnel *not affiliated with Texas A&M* may access these courses through the external user gateway. Please contact ehstraining@tamug.edu for login and access information, as the password changes regularly.
- 3) **EHSA** – Some radiological safety online courses are hosted at <https://ehsdtraining.tamug.edu>. Log in with your NetID and password, then select the course from the list.

B. Classroom Training: In-person By request

Some EHS trainings are available in a classroom setting that is instructor-led in Room 126C at our offices at 1111 Research Parkway, College Station, TX 77845 or offsite at a Texas A&M campus location. Contact ehstraining@tamug.edu for more information.

Course Descriptions, By Title

Aerial Lift Safety 	
Description: This course will educate employees on the safe operation of aerial lifts and how to identify and avoid associated hazards.	
Delivery Format: Online (TrainTraq #2114395)	Audience: Employees who operate aerial lifts or work in areas with aerial lifts
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety

All Terrain Vehicle (ATV) General Safety 	
Description: This course consists of safety information for general use of an ATV.	
Delivery Format: Online (TrainTraq #2111255)	Audience: Employees who operate ATVs
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: All Terrain Vehicle (ATV) General Safety- TrainTraq #2111256	

Asbestos Awareness 	
Description: This course provides a general awareness of asbestos, identifies what materials may contain asbestos, and explains how these materials should be handled on campus. It may also be used as a refresher after completing the initial Asbestos Awareness training.	
Delivery Format: Online (TrainTraq #211131)	Audience: All Employees
Contact: ehstraining@tamu.edu	Category: Asbestos

Online

In-person

By Request

Audiogram 	
Description: EHS conducts noise surveys on campus and provides annual audiograms to employees who are exposed to elevated noise levels at work through the Hearing Conservation Program. This audiogram (hearing test) is conducted annually and should follow hearing conservation training,	
Delivery Format: Online (TrainTraq #2114710)	Audience: All Employees
Contact: noise@tamu.edu	Category: Hearing Conservation

Automated External Defibrillator (AED) Awareness 	
Description: This course defines the basic functions of AEDs, potentially life-saving devices found in many Texas A&M University facilities, and how and when they should be used.	
Delivery Format: Online (TrainTraq #2112937)	Audience: All Employees
Contact: ehstraining@tamu.edu	Category: Automated External Defibrillators

Cattle Handling Safety 	
Description: This course provides safety information for cattle handling.	
Delivery Format: Online (TrainTraq #2111251)	Audience: Employees who may work with cattle
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: Cattle Handling Safety- TrainTraq #2111253	

Online

In-person

By Request

Chemical Segregation 	
Description: This course defines the chemical storage requirements for laboratories on the Texas A&M University campus.	
Delivery Format: Online (TrainTraq #2113461)	Audience: Any and all personnel working with or in proximity to hazardous chemicals
Contact: ehstraining@tamu.edu	Category: Laboratory Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Confined Space  	
Description: This course reviews the Texas A&M Confined Space Entry program.	
Delivery Format: In-Person (By Request)	Audience: Employees who may enter confined spaces
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety

Crowd Manager – General Training 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons.	
Delivery Format: Online (TrainTraq #2114474)	Audience: Crowd Managers and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Crowd Manager – Supervisor Training 	
Description: This course provides guidance to crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons.	
Delivery Format: Online (TrainTraq #2114475)	Audience: Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety
Course Prerequisite: Crowd Manager – General Training – TrainTraq #2114474	

Online

In-person

By Request

Crowd Manager – Venue Specific Training – Aggie Park 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Aggie Park venue.	
Delivery Format: Online (TrainTraq #2114476)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety
Course Prerequisite: Crowd Manager – General Training – TrainTraq #2114474	

Crowd Manager – Venue Specific Training – Davis Diamond 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Davis Diamond venue.	
Delivery Format: Online (TrainTraq #2114568)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Crowd Manager – Venue Specific Training – E.B. Cushing Stadium 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the E.B. Cushing Stadium venue.	
Delivery Format: Online (TrainTraq #2114569)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Crowd Manager – Venue Specific Training – Ellis Field 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Ellis Field venue.	
Delivery Format: Online (TrainTraq #2114570)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Online

In-person

By Request

Crowd Manager – Venue Specific Training – Hildebrand Equine Complex 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Hildebrand Equine Complex venue.	
Delivery Format: Online (TrainTraq #2114639)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Crowd Manager – Venue Specific Training – Mitchell Tennis Center 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Mitchell Tennis Center venue.	
Delivery Format: Online (TrainTraq #2114637)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Crowd Manager – Venue Specific Training – Olsen Field at Blue Bell Park 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Olsen Field at Blue Bell Park venue.	
Delivery Format: Online (TrainTraq #2114638)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Crowd Manager – Venue Specific Training – Watts Cross Country Course 	
Description: This course provides guidance to crowd managers and crowd manager supervisors who are required to attend public events with gatherings of 250 or more patrons at the Watts Cross Country Course venue.	
Delivery Format: Online (TrainTraq #2114640)	Audience: Crowd Manager and Crowd Manager Supervisors
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety

Online

In-person

By Request

Dry Ice Training for Shipping 	
Description: This course defines the requirements for shipping non-hazardous materials on dry ice.	
Delivery Format: Online (TrainTraq #211140)	Audience: Individuals who need to ship non-hazardous materials on dry ice
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Excavation Safety-Competent Person Training for Utilities & Energy Services (UES) 	
Description: This course covers the requirements and role of Competent Persons overseeing the excavation work conducted at Texas A&M; it defines hazards related to excavation work, describes work practices and selection of protective systems to safeguard against cave-ins; and communicates measures to be taken for safe entry and exit.	
Delivery Format: Online (TrainTraq #2114268)	Audience: UES Employees working in and around excavations and the role of Competent Person assigned to such worksites
Contact: ehstraining@tamu.edu	Category: UES

Forklift Safety and Operations 	
Description: This course will educate employees on forklift safety and operations. All employees who work in a facility where forklifts are operated should complete this course.	
Delivery Format: Online (TrainTraq #211414)	Audience: Any employee operating forklifts or working in an area with forklifts. Forklift Certification requires this training, followed by a hands-on practical.
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety

Online

In-person

By Request

General Awareness Training (DOT/IATA Hazardous Material Shipping)  	
Description: This course provides familiarity with DOT and IATA regulatory requirements for shippers of hazardous materials/dangerous goods and to enable the employee to recognize and identify hazardous materials consistent with the hazard communication standards of the DOT/IATA regulations.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping hazardous materials and dangerous goods within the requirements of DOT/IATA regulations
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

General Radiation Producing Device 	
Description: This course defines the general radiation safety for analytical X-ray units. It is also offered as a two-year refresher training for RPD users.	
Delivery Format: Online (EHS)	Audience: Employees who use any radiation producing devices (X-rays including XRDs and XRFs, accelerators, etc.), prior to handling
Contact: radiological-safety@tamu.edu	Category: Radiological Safety
Note: Also accessible through the TrainTraQ External Gateway (For persons non-affiliated with Texas A&M).	

General Radiation Producing Device Training for Non-Texas A&M Users 	
Description: This course covers radiological safety basics as well as the state rules and Texas A&M safety policies and procedures regarding utilization of analytical RPDs.	
Delivery Format: Online (By Request)	Audience: Non-Texas A&M users who will operate any Texas A&M RPDs for research or analytical purposes, or for any individuals which are in the room while any Texas A&M RPD is being utilized for research or analytical purposes.
Contact: radiological-safety@tamu.edu	Category: Radiological Safety
Note: Only accessible through the TrainTraQ External Gateway (For persons non-affiliated with Texas A&M).	

Online

In-person

By Request

General Radiation Safety  	
Description: This course includes the basics of radiation safety, state regulations, how to order radioactive materials, and how to schedule waste pickup, etc. It is required, by state law, for all Radioactive Material (RAM) users.	
Delivery Format: In-Person (Scheduled)	Audience: Employees who handle radioactive materials in the laboratory, prior to handling
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

General Radiation Safety for the Electron Beam Facility 	
Description: This course is specifically for users of the electron beam accelerator, used for research and development and industrial operations.	
Delivery Format: Online (EHS)	Audience: Individuals who use the electron beam accelerator at the Electron Beam Food Research Facility
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

General Radiological Safety Refresher 	
Description: This course is offered as a two-year refresher training for users of radioactive materials. All RAM users who completed the classroom training must complete the online refresher training every two years.	
Delivery Format: Online (EHS)	Audience: Employees who handle radioactive materials in the laboratory, every two years after completing initial training
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

Online

In-person

By Request

General Shop Safety 	
Description: This course includes shop safety guidelines, job specific hand and power tool use and safety precautions, and other hazards encountered in a shop environment.	
Delivery Format: Online (TrainTraq #2113364)	Audience: Employees who work in a shop environment
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

General Stormwater Awareness 	
Description: This course covers stormwater management for Texas A&M; defines stormwater, municipal separate storm sewer systems, and potential pollutants that may have an adverse effect on stormwater; and reviews stormwater management requirements for Texas A&M.	
Delivery Format: Online (TrainTraq #211408)	Audience: Employees that handle materials that may negatively impact stormwater
Contact: ehstraining@tamu.edu	Category: Environmental Compliance

General Tractor Safety 	
Description: This course consists of the safety guidelines and operation procedure of smaller (20 - 30 hp) tractors. It provides good safety information for any model tractor, not just John Deere.	
Delivery Format: Online (TrainTraq #611031)	Audience: Employees that may operate tractors
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture

Online

In-person

By Request

Hands-on Fire Extinguisher  	
Description: This course will provide in-person practice using a portable fire extinguisher. You should complete the online training referenced below prior to contacting ehstraining@tamu.edu to schedule the hands-on portion.	
Delivery Format: In-person (By Request)	Audience: All Employees. May be required for certain staff and students.
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety
Course Prerequisite: Online Fire Extinguisher – TrainTraq #2114427	

Hazard Communication 	
Description: This course is an overview of labeling systems, reference materials, physical hazards, toxicology, and personal protective equipment. Content provided by the A&M System Office of Safety. Course developed by Employee & Organizational Development at Texas A&M University.	
Delivery Format: Online (TrainTraq #11020)	Audience: All personnel working with or in proximity to hazardous chemicals. May be used as a refresher every three years after initial training.
Contact: ehstraining@tamu.edu	Category: Laboratory Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Hazard Communication for Non-Laboratory Personnel 	
Description: This course provides an overview of hazardous chemicals in the workplace, including labeling, exposure effects, reducing exposure potential, and spill response.	
Delivery Format: Online (TrainTraq #2114811)	Audience: All personnel working with chemicals in shops, warehouses, maintenance areas, or any other non-laboratory setting.
Contact: ehstraining@tamu.edu	Category: Laboratory Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Online

In-person

By Request

Hazardous Material Shipping DOT 49CFR HMR  	
Description: This course introduces and provides instruction in the use of the regulation, tables, preparation of documents, marking, labeling, and packing for HM transport.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping hazardous materials and dangerous goods by ground
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Hazardous Material Shipping-Excepted Quantities/Small Quantities  	
Description: This course introduces and provides guidance in identifying and preparing hazardous materials that meet the regulatory requirements of Excepted Quantity/Small Quantity shipments.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping hazardous materials and dangerous goods in excepted or small quantities
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Hazardous Material Shipping-Function Specific  	
Description: This course introduces and provides guidance in identifying and preparing specific hazardous materials that are shipped routinely, as required by IATA and DOT regulations.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping specific hazardous materials and dangerous goods
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Hazardous Material Shipping-IATA DGR (International Aviation Transportation Association Dangerous Goods Regulations)  	
Description: This course introduces and provides guidance with the use of the IATA Dangerous Goods Regulations for shipping dangerous goods by air domestically and internationally.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping hazardous materials and dangerous goods by air
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Online

In-person

By Request

Hazardous Material Shipping-Infectious Substance DOT/IATA  	
Description: This course introduces and provides guidance in identifying Infectious Substance in accordance with IATA and DOT regulations, and instructions in preparation of shipment for air/ground transport.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping infectious substances under DOT and IATA
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Hazardous Material Shipping-Radioactive Materials (RAM)  	
Description: This course introduces the relationship of activity, exposure, and isotopes required by the IATA and DOT regulations in the receiving and shipping of radioactive materials, to include the preparation of documentation, packaging, marking, and labeling of RAM.	
Delivery Format: In-Person (By Request)	Audience: Individuals shipping radioactive materials under DOT and IATA
Contact: ehstraining@tamu.edu	Category: Hazardous Material Shipping

Hearing Conservation 	
Description: This course provides employees with a general awareness of noise, what work areas may present noise hazards, and how to prevent noise-induced hearing loss. It may also be used as a refresher.	
Delivery Format: Online (TrainTraq #2114059)	Audience: All employees and those that work in noisy environments
Contact: ehstraining@tamu.edu	Category: Hearing Conservation
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Hearing Conservation Training for Utilities & Energy Services (UES) 	
Description: This course provides UES employees with a general awareness of noise, what areas may present noise hazards, and how to prevent noise-induced hearing loss. It may also be used as a refresher.	
Delivery Format: Online (TrainTraq #2114060)	Audience: All UES employees and those that work in noisy environments
Contact: ehstraining@tamu.edu	Category: Hearing Conservation/UES

Online

In-person

By Request

Heat Stress Awareness 	
Description: This course focuses on preventing heat stress, recognizing the signs of heat-related illness, and how to work safely in related hazardous conditions. It is intended for anyone that works in extreme heat or hot environments, including jobs that require you to be outdoors or physically active in hot and/or humid conditions.	
Delivery Format: Online (TrainTraq #2114293)	Audience: All Employees
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety

John Deere Gator HP Series Safety 	
Description: This course provides safety information for safely operating a John Deere Gator.	
Delivery Format: Online (TrainTraq #611032)	Audience: AgriLife employees who may operate a John Deere Gator
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: John Deere Gator HP Series Safety- TrainTraq #711024	

John Deere Riding Lawn Equipment Safety 	
Description: This course presents a John Deere training video, reviewing how to use general lawn equipment safely.	
Delivery Format: Online (TrainTraq #611028)	Audience: AgriLife employees who may operate John Deere lawn equipment
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: John Deere Riding Lawn Equipment Safety- TrainTraq #711019	

Online

In-person

By Request

John Deere ZTrak Mower Safety 	
Description: This course presents a John Deere training video, reviewing safety and operation of ZTrak Mowers.	
Delivery Format: Online (TrainTraq #611030)	Audience: AgriLife employees who may operate a John Deere ZTrak Mower
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: John Deere ZTrak Mower Safety- TrainTraq #711021	

Laboratory Safety (Classroom)  	
Description: This course reviews hazard communication (chemical safety), physical safety, and fire safety training required for new/newly assigned employees prior to working in areas resulting in exposure to hazardous chemicals.	
Delivery Format: In-Person (By Request)	Audience: New/newly assigned employees prior to working in areas of exposure to hazardous chemicals.
Contact: ehstraining@tamu.edu	Category: Laboratory Safety

Laboratory Safety (Online) 	
Description: This online course covers hazards associated with laboratory work; defines laboratory safety precautions, equipment, and recommended practices; and reviews expectations of laboratory personnel.	
Delivery Format: Online (TrainTraq #2114106)	Audience: New/newly assigned employees prior to working in a laboratory. Must be used as a refresher every three years after initial training.
Contact: ehstraining@tamu.edu	Category: Laboratory Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Online

In-person

By Request

Large Capacity Van 	
Description: This course will educate employees and students on the safe operation of large capacity vans, regardless of how many seats are installed in the van, and how to identify and avoid associated hazards.	
Delivery Format: Online (TrainTraq #2114470)	Audience: This training is required annually for any driver of a leased or rented large capacity passenger van when Texas A&M University funds are used for payment.
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Laser Safety 	
Description: This course reviews laser safety in the laboratory.	
Delivery Format: Online (EHS)	Audience: All employees intending to use laser systems
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

Magnetic Resonance Imaging (MRI) Safety 	
Description: This course provides MRI safety information and is intended for users of MRI for research and development.	
Delivery Format: Online (EHS)	Audience: Employees who use MRI machines
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

Office Ergonomics 	
Description: This course introduces the basic principles of office ergonomics, components of office workstations, and how to prevent ergonomics-related injuries.	
Delivery Format: Online (TrainTraq #2113004)	Audience: All Employees
Contact: ehstraining@tamu.edu	Category: Ergonomics

Online CPR/AED 	
Description: This course reviews CPR, AEDs, and first aid choking in all age groups.	
Delivery Format: Online (TrainTraq #2114469)	Audience: All Employees. May be required for certain staff and students. Must be completed prior to skills practice.
Contact: ehstraining@tamu.edu	Category: Automated External Defibrillators and General and Occupational Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Online Fire Extinguisher 	
Description: This course is designed to provide a basic overview of the science of fire, different types of portable extinguishers, and how to use the PASS method to extinguish a fire.	
Delivery Format: Online (TrainTraq #2114427)	Audience: All Employees. May be required for certain staff and students. Must be completed prior to hands-on training.
Contact: ehstraining@tamu.edu	Category: Fire and Life Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Personal and Organizational Safety Awareness 	
Description: This course is an overview of the resources available for students, faculty, staff, and visitors to reference for personal or general safety guidance at Texas A&M.	
Delivery Format: Online (TrainTraq #2114728)	Audience: All Employees
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).

Pesticide Safety in the Greenhouse: Understanding and Applying the Worker Protection Standard (WPS) 	
Description: This course provides safety information to pesticide handlers and workers with work activities in greenhouses.	
Delivery Format: Online (TrainTraq #2113883)	Audience: Employees who are pesticide handlers/workers in greenhouses.
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: Pesticide Safety in the Greenhouse: Understanding and Applying the Worker Protection Standard (WPS)- TrainTraq #2113884	
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Precursor Chemical 	
Description: This course will familiarize you with the Memorandum of Understanding the Department of Public Safety and Texas Higher Education Coordinating Board has established to clarify responsibility in regards to Precursor Chemicals and Apparatus used in higher educational facilities.	
Delivery Format: Online (TrainTraq #2112860)	Audience: Employees who purchase, use, dispose of, or surplus precursor chemicals or apparatus that fall under the definition set by the state of Texas
Contact: ehstraining@tamu.edu	Category: Laboratory Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Quantitative Fit Testing and Respiratory Protection  	
Description: This course is an overview of the Texas A&M Respiratory Protection Program, including basic instruction on the use of respirators, hazard recognition, and the completion of a quantitative fit test for approved respirator(s).	
Delivery Format: In-Person (By Request)	Audience: Employees who use respirators for protection from non-biological hazards
Contact: ehsd.occ.health@tamu.edu	Category: Respiratory Protection

Radiation Producing Device Training for Users at the Vet Hospital 	
Description: This course covers diagnostic radiography (X-ray) fluoroscopy (Fluoro), Computer aided Tomography (CT), Tomotherapy, and other hazards.	
Delivery Format: Online (EHS)	Audience: Employees at the Veterinary Hospital who work with radiation producing devices such as X-rays must complete this online training prior to handling
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

Radiological Safety Training-VMTH (Classroom)  	
Description: This course is required, by state law, for all Veterinary uses of Radioactive Material (RAM) and includes nuclear medicine diagnostic and therapy uses at VTH. It is offered monthly and at the request of VTH.	
Delivery Format: In-Person (Scheduled/By Request)	Audience: Employees at the Veterinary Hospital who handle radioactive materials or animals injected with radioactive materials, or work with radiation producing devices such as X-rays must complete this classroom training prior to handling.
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

Safe Lifting 	
Description: This course introduces basic safe lifting techniques.	
Delivery Format: Online (TrainTraq #2112675)	Audience: All Employees
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety

SEE Line Radiation Safety Training-Cyclotron Institute 	
Description: This course provides radiation safety training specific for those individuals who perform Single Event Effect (SEE) or similar experiments at the Cyclotron Institute.	
Delivery Format: Online (TrainTraq #2114160)	Audience: Visiting research staff who will work in the Cyclotron facility must complete this training prior to working in the facility.
Contact: radiological-safety@tamu.edu	Category: Radiological Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Slow Moving Vehicle (SMV) 	
Description: This course reviews vehicle markings, safety, and travel routes for Slow Moving Vehicles on the Texas A&M University Campus.	
Delivery Format: Online (TrainTraq #2112256)	Audience: All employees operating an SMV or passengers of an SMV
Contact: ehstraining@tamu.edu	Category: General and Occupational Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

SPCC Awareness & Tank Inspector Training for Utilities & Energy Services (UES) 	
Description: This course covers requirements associated with inspection of oil storage tanks of multiple types; provides details about the campus Spill Prevention, Control, and Countermeasure Plan (SPCC); defines types of tanks and associated requirements; and communicates measures to be taken in the event of a release or spill.	
Delivery Format: Online (TrainTraq #2114216)	Audience: UES employees working in/around facilities that contain oil storage tanks
Contact: ehstraining@tamu.edu	Category: Environmental Compliance/UES

Transportation Training for Moisture Gauge Users 	
Description: This course is required by U.S Department of Transportation (DOT) 49CFR 172.704.	
Delivery Format: Online (EHS)	Audience: Texas A&M employees transporting soil moisture/density gauges over public roadways
Contact: radiological-safety@tamu.edu	Category: Radiological Safety

Veterinary Hospital Radiation Safety Refresher 	
Description: All RAM users at the VTH who completed the classroom training must complete the online refresher training every 12 months.	
Delivery Format: Online (TrainTraq #2112382)	Audience: Employees at the Veterinary Hospital who handle radioactive materials or animals injected with radioactive materials, or work with radiation producing devices such as X-rays must complete this refresher training every two years after completing the prerequisite.
Contact: hr-vmth@cvm.tamu.edu	Category: Radiological Safety
Course Prerequisite: Radiological Safety Training-VMTH (Classroom)- TrainTraq #2112734	
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Vet Imaging Annex Safety Awareness VMTH 	
Description: This course reviews the areas of concern at the Diagnostic Imaging and Cancer Treatment Center (DICTC) and provides information for how to keep yourself and others safe.	
Delivery Format: Online (TrainTraq #2111541)	Audience: Broad Non-technical Audience
Contact: scarter@cvm.tamu.edu	Category: Radiological Safety
Course Equivalent: Vet Imaging Annex Safety Awareness VMTH (Spanish) - TrainTraq #2111542	
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).

Veterinary Teaching Hospital Radiation Producing Device (RPD) 	
Description: This course is required, by state law, for all individuals who will operate any Texas A&M radiation producing device (RPD) for veterinary purposes, or for any individuals which are in the room while any Texas A&M RPD is being utilized for veterinary purposes. It reviews radiological safety basics as well as the state rules and Texas A&M RPD safety policies and procedures regarding utilization of veterinary RPDs.	
Delivery Format: Online (TrainTraq #2114161)	Audience: Non-Texas A&M users who will operate any Texas A&M RPDs for veterinary purposes or for any individuals which are in the room while any Texas A&M RPD is being utilized for veterinary purposes.
Contact: radiological-safety@tamu.edu	Category: Radiological Safety
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Waste Anesthetic Gas (WAG) Awareness 	
Description: This course is a general awareness training for anyone who works or supervises work with anesthetic gases administered to humans or animals.	
Delivery Format: Online (TrainTraq #2114681)	Audience: Employees working with anesthetic gases
Contact: ehstraining@tamu.edu	Category: Occupational Health
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).	

Worker Protection Standard (WPS) for Pesticide Handlers and Workers 	
Description: This course complies with the requirements of CFR Title 40 §170.230 <i>Pesticide safety training for handlers</i> and CFR Title 40 §170.130 <i>Pesticide safety training for workers</i> .	
Delivery Format: Online (TrainTraq #2111553)	Audience: Pesticide Handlers and Workers
Contact: Brad Urbanczyk burbanczyk@tamu.edu	Category: Agriculture
Course Equivalent: Worker Protection Standard (WPS) for Pesticide Handlers and Workers - TrainTraq #2111554	
Note: Also accessible through the TrainTraq External Gateway (For persons non-affiliated with Texas A&M).
