

Texas A&M Environmental Policy

At Texas A&M University, we commit to sustainable practices that protect our assets; respect the health, safety and well-being of our community; provide strict accountability for the natural resources entrusted to Texas A&M; and enhance environmental awareness and stewardship.

The University will comply with environmental rules, regulations and agreements, and to minimize adverse environmental impacts, we commit to

- Reducing the generation of wastes and encouraging reuse and recycling;
- Encouraging the purchase of renewable, reusable, recyclable and recycled materials;
- Reducing risks associated with the storage and disposal of hazardous substances;
- Supporting sustainability education, outreach, research and curriculum that produces global citizens who are equipped to work with others to make our planet more equitable and sustainable; and
- Providing a forum for open communication on environmental issues as well as setting and reviewing related objectives and targets.

Respect. Protect. Preserve.

A handwritten signature in black ink that reads 'M. K. Banks'.

M. Katherine Banks, President
